Local Street Fire Lane Signage

PURPOSE

Provide direction on fire lane signage requirements of local street sections to maintain consistent life safety levels throughout our City. Allowing for unobstructed access of all emergency services. The policy applies to both public and private streets.

POLICY

All local streets that do not meet City of Goodyear minimum street cross section as detailed in EDS detail [G-3136](#) (33.16' BOC-to-BOC), shall be posted with fire lane signage in accordance with IFC [D103.6](#) as amended, EDS detail [G-3142](#) and Design Standards & Policy Manual [8.1.5 C\(9\)](#) at a maximum of 100 feet on center. Any street cross section 26 feet or less shall be posted with signage on both sides.
