ADAPTABILITY

INITIATIVE

## Mary Manning Digital Communications

### How long have you worked for the city?

Nine months.

### What do you do?

As a Digital Journalist, I get to work on a variety of different projects, from shooting videos to creating motion graphics, editing and animation.

### Favorite thing about working for the city:

Working for the city hit all of my check boxes: Being able to give back to the community I live in; great people to work with in a friendly, team-orientated environment; and the best commute I have ever had!

### Favorite core value:

Empathy. It's a hard thing to 'walk a mile in someone else's shoes' but I think doing so, on a global scale, would alleviate so many of the societal problems that we face.

### What do you like to do in your spare time:

I like building PC's. They are like Lego sets for adults. My first love is animation so I like to work on my own 3D animation projects in my off time, too.

### Fast Facts

What did you want to be when you grew up:

**A scientist or an artist. I became an artist.**

If you won \$1 million:  
**I would invest. A million won't be worth as much in 20 years, so I would make that money grow!**

Next on your bucket list:  
**Learn another language.**

Favorite app:  
**Web Browser: All of the world's knowledge at our fingertips!**

If you could have one superpower:  
**I like the idea of a strength of will and dedication to excellence so strong that you can outwit/outsmart anyone with superpowers. Example: Batman, who can immobilize the entire Justice League.**
