Guillermo "Willy" Elizondo
Human Resources

How long have you worked for the city:

About 20 years total.

What do you do:

My job has a lot of variety. I help employees with worker compensation treatment, follow up with damaged property, handle notice of claims and help teams find resources with items that are for safety or wellness-related (The Whole Employee).

Favorite thing about working for the city:

For me, it's always been employees wanting to help others. We don't always get it right, yet we dust ourselves off and work on fixing what did not go well.

Favorite core value:

I have two, integrity and Initiative, which to me mean being honest and willing to take the risk to move in a direction that is better for everyone.

What do you like to do for fun:

Photography, wood working, hunting/fishing, and exploring tech. I am currently, working on disconnecting from work by doing some sightseeing in Arizona. I recently toured Jerome and had a picnic in the Mingus Mountains with friends.
