

CORE VALUES

EMPATHY

OPTIMISM

INTEGRITY

INNOVATION

ADAPTABILITY

INITIATIVE

Aaron Huwer

Public Works Department

Where did you work before this position:

I was working at Topgolf, so this is a huge change of scenery.

What do you do:

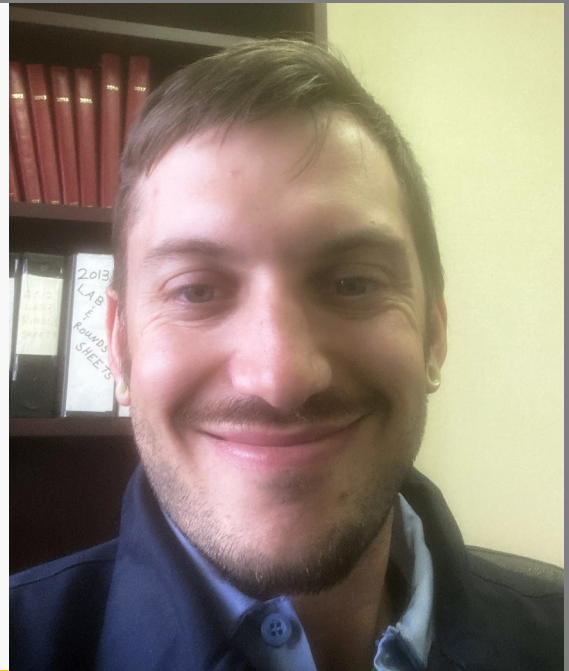

I currently maintain and keep the Wastewater facilities working at peak performance. I ensure that we are in compliance with the Arizona Department of Environmental Quality (ADEQ).

Favorite thing about working for the city:

The camaraderie. Everyone says hello, waves and likes to joke around with each other. It's almost like a big family.

Favorite core value:

Empathy. I have had some situations in which everyone around me has helped me out. In these unprecedented times it means a ton to us all.

Fun Facts

What did you want to be when you grew up:

I didn't want to do your normal kid's dream job of vet, firefighter or NASCAR driver. I wanted to be an astronomer. I loved, and still love, the night sky and all that we don't know about it!

Ideal super power:

Would be to read minds. It would be forever helpful for my married life. No more fights with the missus. She already thinks I can read minds, ha ha.

Favorite movie:

Inception and Interstellar. I love movies that have twist and turns and make you questions everything about it and life.

Dream vacation:

Camping in the woods. Colorado is beautiful. Mountains, river bed nearby to fish and just a little peace and quiet. Music to my ears.

Next on your bucket list:

Buy a camper to go camping more often. Tents were fun with two, but now we are four. Time to upgrade!
