INNOVATION

ADAPTABILITY

INITIATIVE

Blaine Miller Engineering

What do you do:

I am an inspector for the Engineering Department. I inspect everything outside of buildings, including grading, concrete, asphalt, water, sewer, storm, streetlights, signage, stripping, traffic signals and traffic control and safety.

Favorite thing about working for the city:

The quality of people I work with in the different departments.

Favorite core value:

Adaptability, as every day we adapt to problems with standards, design and building issues.

Fun Facts

Childhood nickname:

I had three: Hocus Pocus on the basketball court; Reaper, as in the grim reaper, in school; and Ice outside of school because I stay cool under stressful situations.

Dream vacation:

Traveling the Orient and the Caribbean.

Next on your bucket list:

A fine meal from a master chef.
