City Manager's Budget Message

City Manager's Tentative Budget Message

May 20, 2024

Honorable Mayor and Council,

I am pleased to present the city's Tentative budget for fiscal year 2024-25 (FY2025) in the amount of \$818.1 million, an increase of \$322.5 million over the City Manager's Recommended budget. As was the case for our City Manager's Recommended budget, this budget includes no tax rate increases, maintains existing service levels, and demonstrates a continued commitment to invest in our city's employee base all while addressing and furthering various city initiatives centered around delivering on the vision and mission as outlined in our city's Strategic Plan.

Our Tentative budget maintains a continued focus on providing key city services to a growing population and business base, is balanced and sustainable within our financial forecasts, includes all costs associated with day-to-day operations, has new and ongoing capital projects programmed to both maintain and expand critical assets and infrastructure within our city, and includes carryovers of capital projects in the amount of \$214.2 million and one-time carryover expenditures in the amount of \$41.7 million. Carryovers make up the majority of our changes versus the City Manager's Recommended budget, and a detailed breakdown of these carryovers can be found in the subsequent section of this book.

Both our general fund ongoing and one-time forecasts are fully funded and deliverable with current available resources which has been a staple of our conservative budgeting philosophy for years. This has aided in allowing us to manage our recent growth using an exceptionally calculated and deliberate approach.

With contributions from the Goodyear City Council, city management, department directors, and staff, the FY2025 Tentative budget identifies program priorities and matches them with available funding. Preparation of the budget is one of the most important tasks performed each year, and budget adoption is one of the most important policy decisions that you, as elected officials, make for our community. Using our strategic plan as a guide to help prioritize funding, I feel confident this budget allocates resources in an efficient and purposeful manner setting us up for success in achieving the vision I know we all share for our wonderful city.

ECONOMIC CLIMATE

Despite experiencing extreme inflationary pressures culminating in aggressive interest rate hikes by the Federal Reserve, the United States economy and more specifically the Phoenix metro area economy continues to show its strength and resilience. As the economy continues marching further into uncharted waters, the best indicators of future economic performance are current development activity and recent history.

Observing permit activity within the city is another way we analyze growth patterns to aid in the forecasting of future tax revenue. Through April, single family permits are up 109% over the same period last fiscal year, multi-family permits are up 47%, industrial sq. ft. permitted is down 46%, and commercial sq. ft. permitted is down 23%. In reviewing development currently in progress, with the exception of multi-family units, we project permit activity to be flat or slightly decrease in FY2025 resulting in slower growth in ongoing revenues and a reduction in one-time sources.

General Fund revenues remain ahead of our adopted budget and are currently projected to grow at a year over year pace of just over 4%. We see this as sustainable growth and largely incorporate similar growth patterns in our five-year general fund forecast. As previously mentioned, staying conservative and consistent with our forecasting methodology helps maintain and ensure financial flexibility, solvency, and sustainability with the passing of our budget each fiscal year.

BUDGET DEVELOPMENT FRAMEWORK

A breakdown of our \$818.1 million Tentative budget is as follows:

- \$345.5 million related to expenditures that support the day-to-day operations of the city.
 - This operations budget includes annually re-occurring expenses such as personnel, utilities, supplies, contractual services, routine maintenance and repairs, as well as one-time expenditures and associated carryovers that don't qualify for our CIP Plan.
- \$273.7 million related to our Capital Improvement Plan which is defined as projects \$500k or greater excluding vehicles and reimbursements.
 - This amount includes Capital Improvement Plan carryovers of \$214.2 million.
- \$53.4 million for debt service on outstanding debt.
- \$145.5 million of contingencies, reserves, and budget authority.

- Pursuant to policy, the Tentative budget includes a fully funded economic stabilization reserve equal to 15% of ongoing revenues for the General Fund and each of the three enterprise funds. These funds are included in the budget as a policy reserve contingency. Fund balance is also programmed into contingency giving us the authority to spend in the associated lines of appropriation next fiscal year. Also included in this amount is our CIP reserve as part of our 5-year CIP planning process and \$15 million of budget authority ensuring we have adequate spending authority if new revenues arise, or fund balance exceeding projections becomes available.

The General Fund for FY2025 is programmed at \$359.6 million making up 44% of our Tentative budget. This includes ongoing expenditures of \$156.4 million to provide for basic city services such as police, fire, parks, recreation, and support services as well as base budget adjustments, salary and benefit increases, and \$1.9 million in ongoing supplemental budget additions.

An additional \$203.3 million is programmed in the General Fund as one-time expenditures and is made up primarily of \$77.9 million for the Capital Improvement Plan (including carryovers), \$23.9 million of operating carryovers, \$12.0 million of one-time supplementals, as well as our 15% economic stabilization reserve. All unallocated General Fund revenues have been programmed as CIP reserves in the amount of \$52.2 million. This specifically sets aside these funds for planned projects in years two through five of the CIP, as well as unexpected cost overruns or the acceleration of projects as resources, timing, and priorities allow. Any use of CIP reserves during the year is done within the council adopted budget amendment process.

NEW POSITIONS AND EXISTING EMPLOYEES

Continued growth within our city means our workforce needs to grow in tandem to maintain and expand current levels of service. To address these service level needs, our Tentative budget adds 35.43 full-time equivalent (FTE) positions, the same number of FTE's presented to City Council as part of the City Manager's Recommended budget. Two court FTE's were added as a change to the Tentative budget, however these additions were offset by the removal of one Community Services Unit Police Officer and one Police Lieutenant resulting in a net neutral impact to our FTE count.

Of the 35.43 positions included in this Tentative budget, 12.5 reside in the General Fund, 16 are for expanding our ambulance service, 0.93 are for ballpark, and six relate to our Enterprise Funds. Public safety positions make up 56% of the total, reflecting the Goodyear City Council's continued prioritization of the safety of our residents, businesses, and employees. With just over 35 new FTE's, this is the smallest request for position additions dating back to FY2019. The vast majority of which, with the exception of our ambulance service as outlined in the Strategic Plan, are being requested simply to maintain existing levels of service. With adoption of this Tentative budget, our total position count will increase to 996.61 FTE positions.

A large contingent of our workforce is public facing, providing direct services to our residents and customers. The specific additions as presented can be found both in Schedule 5, and in the supplementals section (Schedule 9) of this book.

In addition to keeping up with growth, the Goodyear City Council has steadfastly placed an emphasis on developing and supporting our employees. Accordingly, our FY2025 Tentative budget includes additional enhancements designed to keep us competitive while ensuring internal equity between all our employee groups. Our Tentative budget includes a 4.5% merit increase and a 3.0% market adjustment for all eligible, non-represented employees.

The Goodyear City Council is in year two of approved agreements with our represented police and fire employee groups, which include 3.0% market adjustments and 5.0% step increases for both police and fire. All other wage and benefit enhancements as outlined in the adopted agreements have been included in the budget, as well.

CAPITAL PROJECTS

At the same time new developments in our city are expanding, mature developments in our city are starting to age. This requires continued investment blending the old with the new to maintain assets and infrastructure ensuring a seamless look and feel throughout our community. I am pleased to include once again a fully funded and fully deliverable five-year Capital Improvement Plan (CIP), which represents \$779.4 million of spending over five-years. The first year of the plan totals \$273.7 million, including \$214.2 million of continuation projects carried over from FY2024.

Included in the amount carried over are dollars to widen and enhance Camelback Road between 152nd avenue west to Loop 303, dollars for design and expansion of the Rainbow Valley Water Reclamation Facility Plant, design towards expansion of the Estrella Bridge, and dollars towards a partnership with APS and Buckeye to allow for the reuse of brine produced during the water filtration process.

Other year one projects of note include design to extend Bullard Wash south from GSQ to Goodyear Ballpark, dollars to remodel fire station 184 as a continued effort to bring all our fire stations up to cancer reduction best practices, plus over \$70 million of additional funding towards streets and transportation related projects. Forty seven percent of dollars programmed in our five-year Capital Improvement Plan directly relate to Goodyear City Council priorities as outlined in our city's Strategic Plan.

Due to the efforts of the citizen bond exploratory committee and the approval of our citizens last fall an additional \$232 million of general obligation bond authorization has been incorporated into the City's long-term financing strategy. The ability to utilize this funding source provides the city with additional financial flexibility that, when issued, will go towards various transportation, public safety, and parks related capital projects. As it stands, over \$175 million in general obligation debt is programmed to be issued in our five-year plan, all of which can be accomplished without the need to increase the combined property tax rate.

Unlike ongoing costs, capital projects are one-time in nature and total dollar values vary greatly from year-to-year. The FY2025 Tentative CIP budget of \$273.7 million represents a decrease of \$73.5 million from that presented in the FY2024 Tentative budget.

FINANCIAL POLICY COMPLIANCE

Goodyear has a long-standing history of maintaining conservative financial practices and policies. Key elements of our financial policy include:

- Using one-time resources for one-time expenses, such as equipment or capital projects
- Maintaining investment grade bond ratings
- Adopting contingency reserve amounts of 15% of ongoing revenue for the General Fund and each enterprise fund

- Presentation of a five-year fully funded forecast for the General Fund

This budget was developed within the framework of our financial plan and complies with all aspects of that plan.

CONCLUSION

As presented, the FY2025 budget utilizes all but \$0.3 million of available ongoing resources to cover ongoing costs. Though the result of many variables, the main reasons for this high utilization rate of ongoing resources include:

- The loss of residential rental sales tax effective Jan. 1, 2025 due to legislation adopted by the state. The estimated annual loss of General Fund revenue exceeds \$5 million.
- Inflation driven cost increases that remain elevated to sustain existing levels of service. This has translated more recently into costs increasing at a faster rate than revenues.
- Uncertainty around collections from implementation of the state flat income tax.
- Slightly more conservative projections related to state shared revenues driven by current revenue growth trends coupled with growth of the state's tax base.

Although the items listed above are very real, the city's conservative financial policies and planning have allowed us to present a balanced FY2025 Tentative Budget.

I would like to thank my fellow members of city management, department directors, and staff for helping me in the development of this budget, delivery of the action items of the strategic plan, and the creation of an innovative and engaging culture while providing outstanding service to our customers and residents. Thank you to the budget team for facilitating the alignment of our available resources with our service needs. Finally, thank you Mayor Pizzillo and the Goodyear City Council for your guidance and leadership in establishing the strategic vision for this great city.

Sincerely,

Wynette Reed
City Manager

2. IT Infrastructure Engineer	Critical to the continued success of the IT infrastructure department. Due to the continued growth, the infrastructure department has a substantial backlog of project and operational tasks. The position is responsible for the implementation and operational support of network and systems infrastructure, including managing network switches and routers, virtual infrastructure, disaster recovery and business continuity. Needed for the ongoing 24/7 support of critical systems supporting PD, Fire, SCADA and general city services. Implement and support the city's Firewall based on standards set by the Information Security Officer.	-	-	152,900	3,000	1.00	-	-	-	-	-
3. IT Low Voltage Technician	Install, terminate, and maintain (CAT5e CAT6) horizontal and backbone cabling. Work with project managers and contractors to ensure proper cabling is identified through CIP initiatives along with other department requests such as Public Safety. Oversee cabling initiatives by vendors to ensure jobs are completed properly and on time. Install system cabling for Audio Visual, surveillance, building access, and building alarm needs. Work closely with the AV Technician to support and operate audio visual systems for Council and planning and zoning meetings.	-	-	117,800	3,000	1.00	-	-	-	-	-
4. IT Security Analyst	Perform IT Security related operational duties to include reviewing and responding to alerts and notifications, working on service requests and incidents, creating and maintaining documentation, administration of the security awareness program and other security systems, assisting the Security Engineer as necessary, run reports and distribute information, some project work may be assigned, and other duties as assigned.	-	-	138,400	2,900	1.00	-	-	-	-	-
5. New crew cab pick up truck	The IT infrastructure division frequently has to borrow or check out a vehicle from Fleet or Fire with a lift gate in order to transport network hardware between IT's building to the various project sites. Moving the hardware requires multiple staff members to transport it and the current vehicles assigned to IT do not allow for transportation of the hardware. The team has been supplementing this lack of vehicle with use of personal vehicles which adds extra liability to the staff and the city. The projects also require other tools and equipment to be carried around such as ladders and toolboxes.	-	-	4,100	60,000	-	-	4,100	60,000	-	-

This initiative ensures continuity of functions, streamlines budgets, enhances customer service, and facilitates cross-training for staff flexibility. With oversight of key software systems, vendor contracts, and department-level actions, the position promotes efficiency and workload balance. This role addresses the extensive needs of the department's four major divisions with an annual operating budget of \$32.7M, 59 full-time employees, managing 140+ purchase orders and 300 monthly invoices.	-	-	153,500	4,100	1.00	-	-	-	-	-
5. M5 Module Capital Asset Management (CAM) and Analytics	The AssetWorks Capital Asset Management (CAM) automates life-cycle cost analysis, customizes replacement cycles, & facilitates strategic budget planning. CAM is the first fleet management software dedicated to optimizing analysis, planning, procurement, & disposal of vehicle equipment assets. This software supports electric and alternative fuel vehicles, directly supporting Public Works' FY27 goal to leverage energy-efficient technology and implement proven sustainable technologies.	-	-	5,000	44,000	-	-	5,000	44,000	-	-
6. Fleet Predictive Maintenance Module	Add an additional module in Fleet's software uses GPS and AI to predict Maintenance and reduce downtime for 300 on-road units. Predictive Maintenance anticipates when a vehicle or piece of equipment is likely to experience a failure or require Maintenance; instead of following a fixed schedule or waiting for a breakdown, predictive maintenance leverages real-time data, sensor readings, and advanced analytics to make informed predictions about the condition of assets. Predictive Maintenance directly supports electric & alternative fuel vehicles and supports Public Works' FY27 goal to leverage energy-efficient technology and to implement proven sustainable technologies.	-	-	40,500	15,000	-	-	-	-	-	-

7. GPS Telematics Monitoring for the City Fleet	Annual monitoring costs for GPS (Global Positioning Systems) to provide live telematic data of fleet vehicle location, speed, idle times, seat belt usage, on-board equipment usage (sweepers/buckets), & engine diagnostics. This creates a safer employee environment, provides operational efficiencies, limits city liability against fraudulent claims & reduces annual miles driven. GPS monitoring directly supports electric & alternative fuel vehicles and supports Public Works' FY27 goal to leverage energy-efficient technology and to implement proven sustainable technologies.	-	-	96,000	-	-	-	-	-	-	-
8. Facilities Condition Assessment	Identify visually apparent deficiencies in the buildings and site systems and provide an opinion of required expenditures over the investment period of typically the next 10 years. The evaluation will include site visits to observe the building and site systems, interviews with building management and maintenance personnel, a detailed review of available maintenance systems, and reconciliation of design/construction documents and plans. The evaluation will also include review of accessible on-site amenities to observe the visible components of the building shell and envelope; building interiors; fire and life safety systems; site systems; and the mechanical, electrical and plumbing (MEP) systems.	-	-	-	350,000	-	-	-	350,000	-	-
9. Facilities Supervisor Vehicle	Purchase a vehicle for the Facility Supervisor. Our dedicated Supervisor, managing Civic Square, the Recreation Campus, PW Admin, Park, Ride, and all three Parks Facilities, currently relies on his personal vehicle for these extensive responsibilities. Considering the nature and scale of his duties, providing him with a city vehicle is a necessity.	-	-	4,700	65,100	-	-	4,700	65,100	-	-
10. Unimproved Property Maintenance- Public Works	The city owns multiple properties that are unimproved. In an effort to keep up with the aesthetics of the city, we are requesting additional funds for these additional services areas. These areas are currently empty-unimproved land, open roads for transport or farming purposes only. The proposal includes all labor, chemical, materials, and equipment needed to complete a scope of work.	-	-	-	30,600	-	-	-	30,600	-	-

1. Stormwater Basin and Channel Maintenance	Funding for ongoing maintenance needs for 101 acres of native channels and basins in Goodyear. These channels convey stormwater from roadways and other areas to mitigate potential flooding and ensure stormwater infrastructure operates as designed. As they are naturally occurring, they can easily become overgrown with weeds and vegetation and require regular maintenance to keep the channels clean. In FY2024, \$598,000 was received in one-time funding for channel and basin maintenance. Requesting ongoing funds to keep these areas maintained on a regular basis versus infrequent, larger, and more expensive clean-up efforts.	-	-	-	470,000	-	-	-	470,000	-	-

2. Unimproved Property Maintenance - Stormwater	The city owns multiple properties that are unimproved, meaning they have native landscape or natural vegetation. These parcels require routine maintenance to ensure proper drainage, reduce weeds, remove fire hazards, maintain property values, reduce complaints, and other aesthetic purposes. Over the past year, the Stormwater Division has been meeting with Parks and Public Works to determine ownership and level of service requirements for these vacant/unimproved properties. A total of 352 acres of unimproved city property falls under the responsibility of Stormwater.	-	-	-	1,057,200	-	-	-	1,057,200	-	-

1. Solid Waste Equipment Operators	Add two (2) Solid Waste Operator positions. Due to the growth of solid waste accounts, this increased staff is required to maintain the city's solid waste services to foster a clean, well-maintained, and sustainable community.	-	-	191,800	2,400	2.00	-	192,900	1,300	2.00	-

3. Solid Waste Grapple Tractor	Crucial to sustain our ability to provide bulk collections for the increasing number of accounts. Without an additional tractor, our current fleet likely struggles to meet the expanding volume of bulk collections, potentially leading to delays and service interruptions. Acquiring this vehicle will not only alleviate this strain on our existing resources but will also bolster our operational efficiency, ensuring safe, timely, and reliable bulk waste pickups for our growing clientele. This proactive measure aligns with our commitment to maintaining high service standards and meeting the evolving needs of our expanding customer base.	-	-	12,300	155,100	-	-	12,300	155,100	-	-
4. Solid Waste Container Cleaning Equipment	Acquiring cleaning equipment for our trash and recycling containers is crucial for efficient maintenance. Currently outsourcing due to the lack of a designated cleaning area, using the pressure washer zone for fleet vehicles is unsafe and ill-equipped for managing container solids. Researching external cleaning services highlighted concerns of rising costs and limited vendor availability. With 500+ reusable containers in storage, cleaning is imperative, ensuring compliance with health mandates and saving over \$30,000 annually. Acquiring our equipment is a strategic, long-term investment, paying for itself in 2.7 years.	-	-	3,600	76,100	-	-	-	-	-	-

Water Services											
1. Operating Costs to Send Brine to Palo Verde Nuclear Power Station	Annual operating costs to transmit brine from the two Reverse Osmosis facilities (Bullard Water Campus and Site 12) to Palo Verde Nuclear Power Station. These operating costs were identified as part of CIP #60034 Brine Disposal to begin 7/1/2024. The funds will pay for APS's additional costs of operating the systems and the maintenance, repair, and periodic replacement of the systems improvements. \$2M will be needed each year for O&M; however, the amount will be half in the first year.	-	-	1,000,000	-	-	-	1,000,000	-	-	-
1. Water Treatment Supervisor	Oversee the daily operations of the newly formed Water Treatment Division. In late FY2023, two existing positions were reclassified to Senior Water Treatment Operators in response to requirements from Maricopa County Environmental Services Department to have treatment operators with a Grade 4 ADEQ certification to operate the complex water facilities. A third position was reclassified in FY2024. This division now needs a supervisor with the appropriate experience and knowledge to oversee the administrative and technical aspects of these critical functions. This position is included in the proposed five year rate model.	-	-	159,300	60,900	1.00	-	159,300	60,900	1.00	-
2. Utility Locator	Maintain level of service to Goodyear's increasing 811 (blue stake) workload. Staff responded to over 35,000 ticket requests in CY2023 and currently has a backlog of over 1,200 tickets. Utility locators mark all underground city infrastructure including dry utilities (fiber and traffic signal electric) which account for 22% of the tickets. This position is needed to keep the city from being in violation of ACC and State regulations to complete requests in a timely manner. We are experiencing an increase from new construction, large fiber projects and street improvements. This position is included in the proposed five year rate model.	-	-	104,200	65,300	1.00	-	104,200	65,300	1.00	-
2. Wastewater Treatment Supervisor	Enhance staff oversight, budget control, and process monitoring at the Corgett and Rainbow Valley Water Reclamation Facilities (WRF). The WRFs are going through expansions in capacity and treatment due to growth. This new position will add a level of reliability for all of the WRFs at the supervisory level. The current supervisor has 12 direct reports and 3 facilities which are geographically spread out. This is proving to be too much for one position given the increase in capacities, advanced treatment complexities, and the drive time between facilities in order to provide effective oversight. This position is included in the proposed five year rate model.	-	-	157,100	62,200	1.00	-	157,100	62,200	1.00	-

3. Utility Maintenance Supervisor	Add a supervisor to the Utilities Maintenance Division to split the division into two specialized groups. This addition will allow for a more manageable span of control (the current supervisor has 10 direct reports). The current supervisor will retain the Maintenance Mechanics that specialize in the operational and emergency maintenance of all equipment for the water and wastewater sites in Goodyear's service area. This new supervisor will oversee the Electrician and Instrument Control Technicians who are instrumentation and controls specialists in maintaining electrical, instrumentation and SCADA systems within water, wastewater and remote facilities. This position is included in the proposed five year rate model.	-	-	151,100	62,900	1.00	-	152,100	62,900	1.00	-
4. Annual Fire Hydrant Maintenance	Fund a contractor to maintain fire hydrants in the city's water system. Currently Water Distribution staff have competing priorities with meter and valve maintenance, meter reading, customer service activities, utility locating, flushing and emergency water main breaks. Timely maintenance of fire hydrants is important for emergency fire response. Delays in emergency response for fire flows can endanger life and property. Proper maintenance of hydrants also ensures water quality is maintained with scheduled flushing activities. Contracting this maintenance costs less than hiring additional staff and has been used in the past. With these funds, we can achieve 80% of the annual requirement to maintain all hydrants. It is anticipated the remaining 20% can be completed by staff.	-	-	-	225,000	-	-	-	-	-	-
5. Well Impact Analysis for RID GSF Recovery	The city must obtain a recovery well permit in order to recover water stored in the Roosevelt Irrigation District (RID) Groundwater Savings Facility (GSF). Obtaining a recovery well permit requires the applicant to perform and submit a well impact analysis with their application to ensure existing wells are not impacted from withdrawing stored water per ARS 45-834.01. One-time funds are requested to engage an on-call consultant to conduct the analysis. The ability to withdraw stored water from the RID GSF will provide the city greater operational flexibility during times of drought/shortage or whenever the need for additional water resources is needed to meet water demands.	-	-	-	100,000	-	-	-	100,000	-	-
